SUBJECT: Command Policy on Prevention of Sexual Assault

b. Sexual assault degrades our readiness and our morale, and is against every value on which our organization is based. Leaders at every level will create and promote a positive command climate in which victims feel comfortable and confident in reporting sexual assaults to the Chain of Command and criminal investigators. Leaders will ensure that victims are treated fairly and with dignity and respect for their privacy. Leaders will use our medical and legal resources to assist and provide immediate care, counseling, and justice for victims of sexual assault.

c. Sexual assault prevention requires leaders and Chain of Command involvement and we must all work together to implement this training and program to affect our Soldier's sense of well being while assigned to this command.
